EFFECT OF TARIPF REVISION. The Morrison Bill Analyzed and Bitimated to Cause \$30,000,000 Reduc-

tion in Revenue. The Secretary of the Treasury has written to Representative Morrison, chairman of the ways and means committee, in regard to the probable effect the passage of the Morrison tariff bill will have on the public ravenucs. In the letter he says that the net reduction computed on the basis of last year's importations would be about \$12,000,000. In regard to the proviso limiting the maxiin regard to the provise limiting the maximum of duties to certain ad valorem rates be says it leaves room for controversy on values, but that the values could be approximately ascertained by the enstoms officers. He surgests, however, that provision be made by which the valuation of such officers should be made final and not leave this important question to be, in after years. Important question to be, in after years, subjected to the uncertainties of a trial in court, with the consequent cost to the peo ple of refunds of duties. The same re-marks, he says, apply to those clauses of the bill which fix the rate of duty according

marks, he says, apply to those clauses of the bill which fix the rate of duty according to the value of the article.

He calls attention to the necessity of making more clear, in some cases, the exact articles to which provises apply, a trouble-some defect in the present tariff law. He expresses the opinion that the provisions in tariff acts fixing the rate of duty according to the component material of chief value leads to litigation, because of the uncertainty of the meaning of that term when applied to a manufactured article. There are a number of suits pending which involve this question, and in them the Secretary fears the government will be defeated. The term carthenware, he says, is also open to misconstruction. In a recent case it has been held to mean only hollowware or ware made on the potter's wheel, and if this construction should prevail, glazed tile, for illustration, becomes a non-enumerated manufactured article subject to 20 per cent, ad valorem duty. Attention is also called to the uncertainty of the term—broken or granulated rice, and a suggestion made that a maximum size be stated so as to avoid controversy.

The Secretary's letter is accompanied by

the following table, prepared by the chief of the bureau of statistics, showing reduc-tion in duty effected by the Morrison bill, computed on the basis of the imports en-tered for consumption for the year ended June 30, 1885:

Making a grand total of \$23,171,030.

Note 1. The excess of 50 per cent. ad valorem (see proviso on page 15 of the bill) collected on imported articles of fron and steel entered for consumption during the year ending Jame 30, 1855, amounted to about \$135,000\$. This amount is not included in the figures of reduction shown in the above table.

Note 2. Of the 2.548,000,000 pounds of sugar imported into the United States during the last fiscal year, 1,856,000,000 pounds, or 7 iper cent., came from Cuba, Porto Rico, Beazil and the British (west Indies. These countries, according to latest advices from the Department of State, impose an export duty on sugar. If such is the fact it is probable that 50 per cent. of the sugar imported for the last year came from countries imposing an export duty thereon. This would change the figures in the table of reduction on sugar from \$0,000,000 to \$12,000,000.

Note 3. The imports of articles of timber and lumber named in the bill as affected by the provise as to the export duty are imported from Canada, which country, so far as learned imposes no export duty on the articles specified. Therefore the proviso has little or no effect.

Col. Switzler, in a letter to the Secretary of the Treasury explaining his computations, says the effect which this bill will have upon the volume of imports is a matter of speculation and conjecture, but that the general effect of a reduction in duty is, of course, to increase importation. There are, however, so many elements in the problem that it would be hazardous to venture an opinion on the subject.

High License and Local Option. At the Liquor Dealers' Association regular meeting last night at Cosmopolitan Hall the meeting last night at Cosmopolitan Hall the committee on legislation submitted an adverse report upon what is known as the high license bill, which provides a license of \$300 for barning for wholesale dealers and \$500 for barnoms, a fine for violation not exceeding \$200 and revogation of license; which was adopted. The committee believed that the passage of this act would be in the interest of the larger establishments, and have the effect of closing out all the small ones. It would weaken their forces and leave them almost at the mercy of their enemies. For these reasons the committee opposed it, and recommended that the license should be continued at \$100, as it now is. They were in favor of the other bill for relation to obtaining signers, and thought they should not, every twelve months, be compelled to chase up property holders and residents to obtain signatures unless complaints had been made, and there was some justifiable cause for it.

for it.
Senate bill 1579, prohibiting the sale of intoxicating liquors in this District, and for the
kolding of an election to decide whether local
option should prevail or not, was read. It did
not require long to decide what action was
necessary in regard to this bill. The executive
committee was suthorized to take charge of it
and use all honorable means to oppose its passage.

St. Patrick's Day Celebration. The general committee of the united Irish societies of the District held a meeting last societies of the District held a meeting last evening, at which the arrangements for the proposed literary and musical entertainment on St. Patrick's night were discussed and satisfactory progress made towards completing the details. Thomas H. Waish, chairman of committee on speakers, reported that Hon. A. G. Curtin would preside and deliver the opening address. He also announced that Hons. M. A. Foran, James D. Brady, and Wm. Woodburn would deliver addresses. L. E. Gannon, who has charge of the musical portion of the entertainment, promises that it shall be worthy the occasion.

Tickets of admission were distributed to the delegations of the different societies for sale, and they can also be had at the book and music stores of the city.

Small Denominations. The general subject of the issue of treasury notes and silver certificates of small denum-tions was discussed at yesterday's meeting of the House committee on banking and currency. There are now forty eight bills before the com-mittee touching the subject under discussion. It was the sense of the committee that a gen-eral bill, or perhaps two, covering the matter should be formulated and reported in lieu of these bills, and with that view the bills will be divided among three subcommittees for ex-amination.

At the evening session resolutions on the death of Hon. John D. Philbrick were reported and unanimously adopted, and several speeches were made reviewing his life. Mr. Philbrick had for years been superintendent of the Hoston schools, and many of his innovations in that school system have been adopted throughout the country.

A paper was read by Hon. S. M. Finger, state superintendent of public instruction, of Caleigh, N. C., on "The Educational and Religions Interest of the Colored Pepple of the South." He gave an exhaustive review of the actual condition of the negro race at the present time, and said the colored people do not desire mixed schools and churches; that such mixing of the schools would do away with colored teachers and preachers, and would be detrimental to the colored race generally. Referring to the Blair educational bill he condemned the provision in it which confines the expenditure to the payment of salaries, while many other branches of the educational work needed funds.

Dr. John L. Buchman, state superintendent of public finstruction of Virginia, indersed the sentiments expressed.

THE GROCERS ASSOCIATION. Important Resolutions Adopted-Early Closing Indorsed -The Flour Trade

and the Millers. The Grocers' Association of the District met at Vernon Row last night, E. M. Bur-chard, president, in the chair; L. A. Dell-

chard, president, in the chair; L. A. Dellwig, secretary. The following resolutions
reported by the executive committee were
adopted unanimously after debate:

Resolved, That while it is desirable that
every individual member of the grocery trade
should be an active, paying member of this
association, it shall yet be lawful for firms to
designate one of their number to sign the
pledge, pay the duces, and enjoy all the privllegues of the association.

Resolved, That any member of the association may delegate a confidential clerk to act
as his representative at any meeting of the association.

Mr. Burchard then introduced the following resolution, which was also passed with-out dissent:

Resolvest, That the movement new in progress to secure the closing of stores at an earlier hour, so that both tradesmen and clerks may be able to devote more time to social duties and mental improvement, meets with the hearty sympathy and support of this association.

ion.

It was also resolved "that the practice of seiling flour to families, which is sometimes indulged in by the manufacturer as well as by those who style themselves wholesale dealers, is injurious to the grocery trade, which exists for that very purpose;" and further, "that it is of consequence to this association to be informed what is the attitude assumed upon this question by millers and wholesale dealers of the District. The secretary was instructed to correspond with the parties, and lay their answers before the association at its next meeting.

EDUCATION FOR VOTING.

The American Institute of Civics Holds Its Inaugural Annual Session.

HOW TO GET PAT.

Something For Lean People. One of the first positive evidences of the development of the conditions which lead to consumption is the knowledge that the body is throwing off in an undigested form the fat that is taken into the stomach. This is followed by a loss in quantity and quality of the blood and corresponding loss in flesh. In these cases there as truly exists consumption (though there need not be necessarily consumption of the lungs at the

eginning) as in any case that ever existed. Lean persons are the only ones who fur-

Lean persons are the only ones who furulah material for the quick development of
many allments. Susceptibility to changes
in the weather, feeble digrestion, limites
strength and energy, nervousness and disturbed sleep, soon lead to some serious discase. Another popular fancy with lean
persons is that they must necessarily always remain lean because their parents have
shown a tendency of this kind.

These lean persons doubtless innerf a
tendency to imperfect action of the digrestive functions. For the cure of this difficulty
many medical authorities have agreed
that a pure stimulant is the best thing, hat
it is not only desirable, but absolutely necessary, to get the best results and a cure, that
the whiskey must be free from fusel oil and
all other adulterations. The Duffy Pure
Mait Whiskey is an absolutely pure article,
so declared to be by eminent chemists who
have analyzed it, and taken alone at meals,
or in connection with our Consumption Formula, a marked increase in weight is obtained, which is permanent and healthful.

Mr. M. V. NEIGHBORS, One Mission

Mn. CHARLES E. BYRNE, Weshington, D. C., wites: "By request of Mr. Engene sullivan, who was recovering from severe typhoid pneumenia, I sent for your consumption formula. He weighed 143 pounds, About a week ago he weighed 154 pounds, an increase of 10 pounds in three weeks. When he commenced its use he was so weak he could hardly walk."

Mn. WM. McENHILL. (Hospital for Rap-tuced and Crippled.) 42th St. and Let. Ave-nue, N. Y., writes: Your Consumption For-muia and Duffy's Pure Malt Whisker is the best remedy I have ever tried. I have gained 5 pounds in weight, and feel 25 per cent. better; have better appetite: less cough. I will recommend it.

Mn. MATTHEW R. COLLINS, 429 49th St., New York, writes: I have used your Form-ula for Consumption and am well pleased. I find my appetite has increased, and my weight about 5 (five) pounds.

Mn. WM. HI. J. WELLS, 955 Calborne Street, Chicago, Ill., writes: After using your buffy's Pure Mait Whiskey one month I weigh 135 points; when I commenced it weigh 120. My color is better, habits regular, tongue clean and healthy-looking. My chest feels lighter. I feel strong, sleep well, and have no night sweates."

MR. W. E. NEWELL, Springfeld, O., writes: "My experience with your Duffy's Pure Mail Whiskey and your Consumption Care is this: They are the best things ever taken together, and by continuing they will cure me. I weighed 118 pounds." I now weigh 123% pounds."

Mn. WM. PETERSON, Conden, N. James, who was disbursing agent, when postmaster, of the government for the funds appropriated for the creetion of the postofiles building in New York, is not entitled to the additional compensation he claims under the net of Aug. 7, 1882, that is ½ of 1 per cent. of the amount disbursed by him. It seems that prior to the passage of the act referred to Secretary Sherman fixed Mr. James's compensation at ½ of 1 per cent. on the amount he had disbursed, and his accounts were settled on that basis. Under the act of Aug. 7, 1882, the Secretary of the Treasury was authorized to fix the compensation of such disbursing agents at a rate not exceeding ½ of 1 per cent. The compiroller holds that the act of Aug. 7, 1882, was not intended to embrace those who had long before performed their duties and settled their secount, but only referred to those who are still disbursing funds, or who might thereafter be appointed. appropriated for the * erection of the postoffice

when thrown into a fire gener ate a gas which immediately extinguishes the fire within a reasonable distance. They are small, neat, and handy, and no building should be without them. In Manutactories, Hotels, Public or Private Buildings they are invaluable. Can be used by a child. They will not freeze, will not injure flesh or fabric, but sure death to fire. We want live, active men to introduce them in every city, town, and village of the U.S. and Canada.
